

## **We here at CryptoTask believe that privacy is a fundamental part of the internet and a basic human right.**

We will do everything in our ability to protect your privacy **on our site**, though we urge you to review the privacy policies of sites that we host links to, so you can ensure you understand how your data is processed.

### **Introduction**

CryptoTask is owned and operated by ZechTech LLC (“CryptoTask,” “us,” “we,” or “our”), and we respect the privacy of the users of our website, applications, or any other products we have direct control over.

This Privacy Policy (the “Privacy Policy”) and any other documents referred to in it sets forth the basis on which any personal data we collect from you, or that you provide to us, in connection with the Product will be processed by us.

We are providing this Privacy Policy so that you can better understand how we collect, use, and share information that is gathered using our Product. All defined terms not defined herein shall have the meaning ascribed to them in the Terms of Service.

### **Our Core Values**

By interacting with any website online, you are placing trust in the website owner to properly handle your data, and we don’t take this responsibility lightly. We are committed to **protecting** and **respecting** your privacy in all situations.

- **Your information is your information**

We limit our need to collect extensive amounts of information from a single user to just a handful to operate, grow, and more reliably deploy better services for you as a user. Wherever possible, we delete or anonymize data when we no longer need it.

- **We protect your information from pirates**

If for whatever reason, a third party requests to view, analyze, or own any of your personal data: we instantly refuse to share it unless you give us permission or otherwise, legally obliged to do. We also will tell you in advance, unless legally prohibited to do so.

### **When do we collect your information?**

We may collect your information at any point when you interact with our product, which may include (but isn't limited exactly to):

- Withdrawing money from your account
- Signing up for an account on our website
- Signing into your account on our website
- Communicating with our support team via our support system
- Participating in promotional giveaways or events

The types of personal data that you provide may include your name, email address, telephone number, mailing address, and other contact or identifying information that you choose to provide. We store, process, and maintain files and content that you create and/or upload using our Product, as well as other data related to your account in order to provide the Product to you.

### **Google Analytics and their handling of your data**

We use Google's Google Analytics service to improve our service. Your data is collected, stored, and handled by Google Analytics for the sole purpose of providing us insight into our users' activity on our service. You can learn how Google handles your data here:

<https://support.google.com/analytics/answer/6004245>

You're free to opt-out of this data collection anytime by following the instructions on this page: <https://tools.google.com/dlpage/gaoptout/>

### **Why we process your information**

In our mission of creating the best product for our users, we may process your personal information in ways that are not crucial to the operation of our site, which may include:

- Sending your promotional materials;
- Respond to your comments, questions, and requests and provide you with requested customer operations;
- Monitor and evaluate trends, usage, and activities in connection with our Product;
- Secure our systems, prevent fraud, and help us to protect the security of your account;
- Prevent, detect, and investigate potentially prohibited or illegal activities and to enforce our terms and policies; and
- Link or combine with other information we obtain from third parties to help understand your needs and provide you with better service.

### **Links to external sites**

Our Product may, from time to time, contain links to and from third-party websites, such as partners, affiliates, and advertisers.

If you follow a link to any external website, it will have its own privacy policy and we are not responsible for the content or practices of such third-party websites or their policies. We are also not responsible for any information that you might share with such linked websites. You should refer to each website's respective privacy policies and practices before you submit any personal data.

### **How long do we retain your personal data?**

We retain Personal Data about you for as long as you have an open account with us or as otherwise necessary to provide you Services. In some cases, we retain Personal Data for longer, if doing so is necessary to comply with our legal obligations, resolve disputes, or collect fees owed, or is otherwise permitted or required by applicable law, rule, or regulation.

Afterward, we retain some information in a depersonalized or aggregated form but not in a way that would identify you personally.

### **Residents of the European Economic Area**

We provide the representations and information in this section in compliance with European privacy laws, in particular the European General Data Protection Regulation (GDPR). If you are a visitor from the European Territories (including the European Economic Area, Switzerland, and the United Kingdom), our legal basis for collecting and using the personal data described above will depend on the personal data concerned and the specific context in which we collect it.

We will normally collect personal data from you where the processing is in our legitimate interests. In some cases, we may collect, and process personal data based on consent.

EU data subjects have certain rights with respect to your personal data that we collect and process. We respond to all requests we receive from individuals in the EEA wishing to exercise their data protection rights in accordance with applicable data protection laws.

- **Access, Correction, or Deletion.** You may request access to, correction of, or deletion of your personal data. You can often go directly into the Service under Account Settings to take these actions.
- **Objection.** You may object to the processing of your personal data where we are relying on a legitimate interest (or those of a third party) and there is something about your particular situation which makes you want to object to processing on this ground as you feel it impacts on your fundamental rights and freedoms. You also have the right to object where we are processing your personal data for direct marketing purposes and may do so using the options provided in this Policy. In some cases, we may demonstrate that we have compelling legitimate grounds to process your information which overrides your rights and freedoms.
- **Restriction.** You have the right to ask us to suspend the processing of your personal data in the following scenarios:
  - (a) if you want us to establish the data's accuracy;
  - (b) where our use of the data is unlawful but you do not want us to erase it;
  - (c) where you need us to hold the data even if we no longer require it as you need it to establish, exercise, or defend legal claims; or
  - (d) you have objected to our use of your data but we need to verify whether we have overriding legitimate grounds to use it.
- **Portability.** You can ask for a copy of your Personal Data in a machine-readable format. You can also request that we transmit the data to another controller where technically feasible.
- **Withdraw Consent.** If we have collected and processed your personal data with your consent, you can withdraw your consent at any time. You can ask us to restrict further processing of your Personal Data.
- **File a complaint.** You have the right to lodge a complaint about CryptoTask's practices with respect to your Personal Data with the supervisory authority of your country or EU Member State. However, we may charge a reasonable fee if your request is clearly unfounded, repetitive, or excessive. Alternatively, we may refuse to comply with your request in these circumstances.

To submit a request regarding your European Privacy Rights, please see the instructions at the end of this Privacy Policy. We may need to request specific information from you to help us confirm your identity and ensure your right to access your personal data (or to exercise any of your other rights).

This is a security measure to ensure that personal data is not disclosed to any person who has no right to receive it. We may also contact you to ask you for further

information in relation to your request to speed up our response. We try to respond to all legitimate requests within one month.

Occasionally it may take us longer than a month if your request is particularly complex or you have made several requests. In this case, we will notify you and keep you updated.

### **How you can reach out to us**

If you would like to ask about, make a request in relation to, or complain about how we process your personal data, you can contact us by email at [privacy@cryptotask.net](mailto:privacy@cryptotask.net)

If you would like to submit a legally binding request to demand someone else's personal data (subpoena or court order), you can contact our legal team at [legal@cryptotask.net](mailto:legal@cryptotask.net)

### **What security measures do we use?**

We seek to protect Personal Data using appropriate technical and organizational measures based on the type of Personal Data and applicable processing activity. You need to prevent unauthorized access to your Account and Personal Data by selecting and protecting your password appropriately and limiting access to your device and browser by signing off after you have finished accessing your Account.

We seek to ensure that user account information is kept private. However, CryptoTask cannot guarantee the security of any Account information. Unauthorized entry or use, hardware or software failure, and other factors may compromise the security of user information at any time.

**Do we store the personal data of children?**

As noted in the Terms of Service accessible on our website, we do not knowingly collect or solicit Personal Data from anyone under the age of 16. If you are under 16, please do not attempt to register for the Services or send any Personal Data about yourself to us.

If we learn that we have collected Personal Data from a child under age 16, we will delete that information as quickly as possible. If you believe that a child under 16 may have provided us Personal Data, please contact us at [privacy@cryptotask.net](mailto:privacy@cryptotask.net).

**Respective notice**

We may change provisions of this Policy from time to time and will indicate when changes have been made by revising the date at the top of this Policy.

We encourage you to review the Policy whenever you access the Product to make sure that you understand our practices. If we make material changes to this Policy, we will provide you with additional notice.

**Changes to this Privacy Policy**

CryptoTask may amend this Privacy Policy from time to time. The use of the information we collect now is subject to the Privacy Policy in effect at the time such information is used. If we make changes in the way we use Personal Data, we will notify you by posting an announcement on our Site or Services or sending you an email. Users are bound by any changes to the Privacy Policy when he or she uses the Services after such changes have been first posted.

**Your acceptance of these policies**

By using our website or Product, you accept the policies and restrictions set forth in this Privacy Policy.

If you do not agree to this policy, please do not use the website or the Product.

**What if I have questions about my personal data?**

If you have any questions about this Privacy Policy or our data practices generally, please contact us using the following information:
